■ MOST HELPFUL FAVORABLE PRODUCT REVIEW

5.0 February 11, 2021

First implementation is not easy. After that, all is simple and secure.

Good and secure solution. Good service and support. We have 20 firewalls and two Control Centers. Each factory has four appliances with high availability configuration. One pair for VPN connections and one pair for internal firewall and Internet. All configuration is managed for our central site.

ReviewSource: 

Support with Barrcauda is great.

Reviewer Role: CTO Company Size: 50M - 250M USD Industry: Retail Industry

Support with Barrcauda is great. Tech's are very knowledgeable and get me fixed up quickly. I would like to see some more options added to reporting for VPN users. Being able to monitor the amount of time they are connected and working would help in our current pandemic enviroments.

Amazing company with great Customer service and very useful products lineup

Reviewer Role: CEO Company Size: <50M USD Industry: Services Industry

Customer Service is the top rated with products priced way better than market. Very good relationship with Barracuda team. We can confidently take the product to production relying on the product.
